		Pentium II - 300Mhz	128MB
Storage	100MB		
External Storage	CD-ROM Drive		
Network Adaptor	Ethernet 802.3 (UTP) or USB Port.		

Terms and Conditions

The provision of Telkom's ADSL Bundled access service is subject to Telkom's standard terms and conditions, available on this website and at all Telkom's Customer Service Branches as well as Telkom's standard ADSL terms and conditions, the acceptable user policy and the terms and conditions applicable to the Free modem 24-month bundle offering available on this website under terms and conditions. Telkom accepts no liability for any loss or damages to the property or equipment of the customer arising out of the provision, installation or maintenance of Telkom's ADSL access service. Telkom cannot guarantee the provision of the requested service upon the receipt of a telephonic or electronic order. You will be formally notified after receipt of an official telephonic or electronic order on whether or not the ADSL access service can be provided. The provision of Telkom's ADSL access service is subject to network availability, distance, copper quality and line sync speed limitations. Telkom would therefore advise you not to purchase an ADSL modem or upgrade your PC prior to confirmation that service can be provided.

The Bundled offering is subject to a 24 month agreement whereby you will be penalised should you terminate your subscription before the period of 24 months has lapsed as per the terms and conditions available on this website, www.telkom.co.za/adsl/terms1.jsp

If you are a 3rd party ordering the service on behalf of someone else, please fax a letter of authority giving you the authority to order the service on behalf of the primary party, together with your Identity document with this order form.

DSL line sync profiles

Fast DSL

Down stream: min 256kbps; max 384kbps

Up stream: min 64kbps; max 128kbps

Faster DSL

Down stream: min 416kbps; max 512kbps

Up stream: min 192kbps; max 256kbps

Fastest DSL

Primary profile

Down stream: min 640kbps; max 4096kbps

Up stream: min 256kbps; max 384kbps

The **Fastest DSL** service has 4 sub-profiles, which are used to stabilize customers' service that experience re-synchs (service interruptions) on their ADSL lines due to last mile distance, noise and attenuation. Therefore customers that experience problems on the service may be accommodated on any of the secondary profiles below:

Secondary profile

- A. min sync rate: 640kbps; max sync rate: 4096kbps
- B. min sync rate: 640kbps; max sync rate: 3072kbps
- C. min sync rate: 640kbps; max sync rate: 2048kbps
- D. min sync rate: 640kbps; max sync rate: 1024kbps

The 4Mbps service is on trial for 6 months, the **Fastest DSL** service remains the default service

I confirm that...

I have read, understood and accepted the conditions on this form, and that the details I have given on this form are correct and complete.
